Company: International Potato Center

Location: Lima

Category: other-general

The International Potato Center (CIP) is looking for an experienced Science Leader, Urban Food Systems to oversee the development and implementation of an innovative and impactful program of research in support of the 'Urban Food Systems' Science Goal of the CIP2030 Strategy.

**The position:** The Science Leader will lead the development and implementation of an innovative and impactful program of research in support of the 'Urban Food Systems' Science Goal of the CIP2030 Strategy. The purpose of the position is to establish urban food systems as an impactful science and innovation area in CIP and CGIAR driven by a future-facing research agenda, designed and delivered jointly with our partners in the Global South. The Science Leader champions equitable partnerships, ensures excellence of science, leads mobilization of resources, and builds a strong research team that promotes young and diverse talent across all of CIP's regions.
